@@BEECHERSCHEESE | WHOLESALE.BEECHERSCHEESE.COM

TRUSTED DELICIOUSNESS SINCE 2003

For over 20 years, Beecher's has delighted in helping you create remarkable moments around your table, every day.

We are steadfast in our commitment to earn and keep your trust—here's how:

- We use only the best ingredients.
- · We have a high bar for deliciousness.
- We operate as a good corporate citizen, creating value for customers, employees, and partners.

A portion of all Beecher's sales goes to support efforts that matter to us most:

PURE FOOD COMMITMENT Beecher's has invested over \$5 million into The Beecher's Foundation, equipping over 350,000 kids to decode food packaging and marketing messages so they can make informed food choices for life.

PLASTIC WASTE While our options for non-plastic food packaging remain limited, Beecher's donates a portion of sales to nonprofit organizations dedicated to cleaning up the world's plastic waste.

TWO DAYS AGO, THIS CHEESE WAS GRASS

With our Pike Place Market cheesemaking kitchen surrounded by glass, visitors witness first hand the transformation of a vat of creamy milk into one of Beecher's award-winning cheeses. Although the cheesemaker is aided only by simple machinery, our artisan cheeses are crafted applying the same techniques that have been used for 5,000 years.

Seven days a week, fresh milk is pumped into the holding tanks at our cheesemaking kitchens. Then the daylong process of cheesemaking begins. Under the skilled direction of the cheesemaker (and with a little help from the cows), the end result is a wholesome, natural, pure cheese-full of flavor and high in nutrition.

IMAGES, TOP TO BOTTOM After the cheesemaker has cut the curds to release the whey, the curds are cut again and stacked into loaves. The loaves are then run through a curd cutting mill, creating uniform curds that are scooped into hoops before being set aside for aging.

MADE ONLY WITH REAL INGREDIENTS

Flavor and purity go hand in hand at Beecher's. The artisan cheeses we sell, and the meats, vegetables and other ingredients we use to make Beecher's café and restaurant deliciousness, are chosen with care and a desire to support broadly local, small-scale enterprises that share our philosophy and commitment to pure food. The Beecher's Credo says it best:

Beecher's Handmade Cheese makes foods only with ingredients we trust, are proud of, and would eat ourselves. It's just authentic and original food, full of flavor.

That means all our products—from our signature Flagship cheese to our line of crackers, entrées, side dishes, and soups—do not contain any artificial preservatives, flavor enhancers or coloring agents, and the premium milk used to produce them contains no added rBST.

FLAGSHIP CHEESE

Fifteen months of aging nurtures Flagship's uniquely robust, nutty flavor to crowd-pleasing perfection. With hints of caramel and browned butter, this semi-hard, pasteurized cheese is balanced, dense and creamy with a light crumble.

Also available as Sticks (page 26).

SERVING SUGGESTIONS

Flagship delights as much on an artisan cheese plate as it does in omelettes, salads, soups and pastas. As "wine's best friend" it pairs well with virtually any glass of red or white; try it on crostini with a savory fruit compote, and enjoy with a glass of Syrah, Pouilly-Fuissé, or a pint of IPA.

AFFINAGE

This special edition of our signature Flagship is a firm, natural rind, pasteurized cow's milk cheese that is first rubbed with butter and then aged at 47°F and 85% humidity. Each truckle is carefully attended to, consistently brushed and hand-turned throughout its aging. This method results in a 14-16% moisture loss during aging, allowing for a slightly lower moisture and higher salt content, which concentrates the already-rich flavor and produces a long, creamy finish.

SERVING SUGGESTIONS

Slice into triangles to create a festive holiday cheese platter heaped with clusters of fresh grapes and ribbons of salty prosciutto.

AFFINAGE

This firm, natural rind, pasteurized cow's milk cheese is first rubbed with butter and then aged at 47°F and 85% humidity. Each truckle is carefully attended, consistently brushed and hand-turned throughout its 13+ months of aging. This traditional method results in a 14-16% moisture loss during aging, allowing for a slightly lower moisture and higher salt content, creating a rich taste and texture with a clean, creamy finish.
